

ZACHARY BIENSTOCK

Hawthorne, NJ | 973-803-6121 | zbienstock@gmail.com | zachbienstock.com

SUMMARY

Finance and analytics professional with 4+ years building financial models, automating reporting workflows, and translating complex datasets into actionable insights for senior stakeholders. Experienced across financial services, SaaS, and startup environments with a track record of driving measurable outcomes through data-driven analysis and client-facing work.

EXPERIENCE

Savings Analyst & Sales Engineer — Full Time

02/2024 – 10/2025

Grapevine | New York City

- Independently built financial models using advanced Excel formulas, macros, and AI-assisted automation (ChatGPT) to quantify cost savings and ROI — including automated email and Slack notifications triggered by data updates — reducing manual reporting by 80%+.
- Designed and maintained KPI dashboards in Figma and Excel to surface performance drivers and savings outcomes, consistently demonstrating 40%+ average cost savings across client accounts; mirroring ad performance and ROAS reporting cadences.
- Conducted variance and spend analysis across tens of thousands of product groups, delivering optimized substitutions generating 20–85% savings with annual client impact ranging from thousands to millions.
- Produced and presented financial performance reports to senior stakeholders, translating complex data into clear, actionable recommendations for client and vendor decision-making.
- Resolved 50+ weekly backorders and supported client and vendor onboarding across a national network, improving retention and fulfillment.

Financial Data Analyst — IB/ASR/Surveillance/Threat Detection

04/2023 – 02/2024

Bloomberg LP | Remote

- Extracted, analyzed, and validated large-scale financial datasets — including derivatives, options, swaps, and forwards — to surface key metrics and identify outlier trends across diverse data sources.
- Evaluated derivatives and trade activity, contributing to a validated database supporting AI-based trade assessment.
- Collaborated with senior data analysts to systematically tag and verify surveillance-relevant data points within client text, improving model accuracy and target detection.

Operations & Marketing Coordinator — Part Time

07/2023 – Present

Reflect Medical & Cosmetic Center | Hawthorne, NJ

- Managed financial operations using QuickBooks, including transaction entry, account reconciliation, expense tracking, and purchase order workflows to maintain accurate records.
- Leveraged AI tools (ChatGPT, Claude, Gemini) to generate marketing content, digital assets, and social media materials, accelerating creative output and reducing production time.
- Coordinated cross-functional workflows across procurement, vendor management, and marketing, ensuring operational alignment and timely execution.

Investment Banking Intern

02/2022 – 02/2023

Cambridge Wilkinson | New York City

- Researched middle-market companies to support debt and equity capital raises ranging from \$25MM to \$1B; built detailed target lists with financial metrics for live deal origination.
- Supported client and investor meetings, helping present financing opportunities to middle-market firms and large institutional investors.

FREELANCE

- Web3 Project Advisor (Crypto Advisor & KOL):** Advised early-stage Web3 projects on utility design, token launches, marketing strategy, and community growth. Supported multiple successful launches reaching \$1M+ market cap through strategic go-to-market execution.
- Computer Technician:** Built, configured, and sold 50+ custom desktop computers through eBay. Diagnosed and repaired hardware and software issues across personal and client devices.

SKILLS

- Analytics & Modeling:** ROI modeling, KPI dashboards, variance analysis, revenue/spend tracking, expected vs. actual analysis, Advanced Excel & Google Sheets (macros, automation, pivot tables)
- Data & BI Tools:** SQL, Metabase, Bloomberg Terminal; Python, HTML, CSS (familiar)
- AI Tools:** ChatGPT, Claude, Gemini — daily use for analysis, automation & workflow acceleration
- Systems & Ops:** Jira, Asana, Linear, Slack, Front, Salesforce, QuickBooks, Figma
- Reporting:** Stakeholder reporting & presentations, customer onboarding, CRM data tracking
