Work Experience

Operations & Marketing Coordinator - Part Time Reflect Medical & Cosmetic Center

07/2023 to Current
Hawthorne, NJ

- Supported financial operations using QuickBooks, including transaction entry, account reconciliation, expense tracking, and purchase order workflows to maintain accurate records.
- Managed medical supply inventory and procurement, coordinating with vendors to ensure timely restocking, accurate counts, and smooth clinical operations.
- Created and managed purchase orders, verified invoices against deliveries, and worked with vendors to resolve discrepancies.
- Designed marketing and promotional materials, digital assets, and social content in Canva while assisting day-to-day administrative and operational workflows across teams.

Savings Analyst and Sales Engineer - Full Time Grapevine

02/2024 to 10/2025
New York City

- Built customer savings reports using advanced Excel formulas and Figma dashboards, consistently highlighting 40%+ average cost savings.
- Designed and maintained automated Excel systems with macros, scripts, and email integrations, reducing manual analysis and reporting by 80%+.
- Analyzed tens of thousands of product groups to deliver optimized substitutions, generating 20–85% savings and annual client impact ranging from tens of thousands to millions.
- Conducted ongoing fidelity checks, resolved 50+ weekly backorders, and supported client and vendor onboarding, improving retention, fulfillment, and overall customer experience.

Financial Data Analyst - IB/ASR/Surveillance/Threat Detection Bloomberg LP

04/2023 to 02/2024
Remote

- Enhanced machine learning surveillance models by extracting, analyzing, and validating large financial datasets to surface key metrics and identify outlier trends across diverse data sources.
- Evaluated derivatives and trade activity, including options, swaps, and forwards, to build and maintain a validated database supporting AI-based trade assessment.
- Collaborated with senior data analysts to systematically tag and verify surveillance-relevant data points within client text, improving model accuracy and target detection.

Investment Banking Intern Cambridge Wilkinson

02/2022 to 02/2023
New York City

- Researched middle-market companies and sectors to support debt and equity capital raises ranging from \$25MM to \$1B.
- Screened companies by revenue and growth and built detailed target lists including executive contacts and key financial metrics for live deal origination.
- Supported client and investor meetings by helping present financing opportunities to middle-market firms and large institutional investors.
